

Logo
Brand
Guidelines

Type Mark

1. Kerning

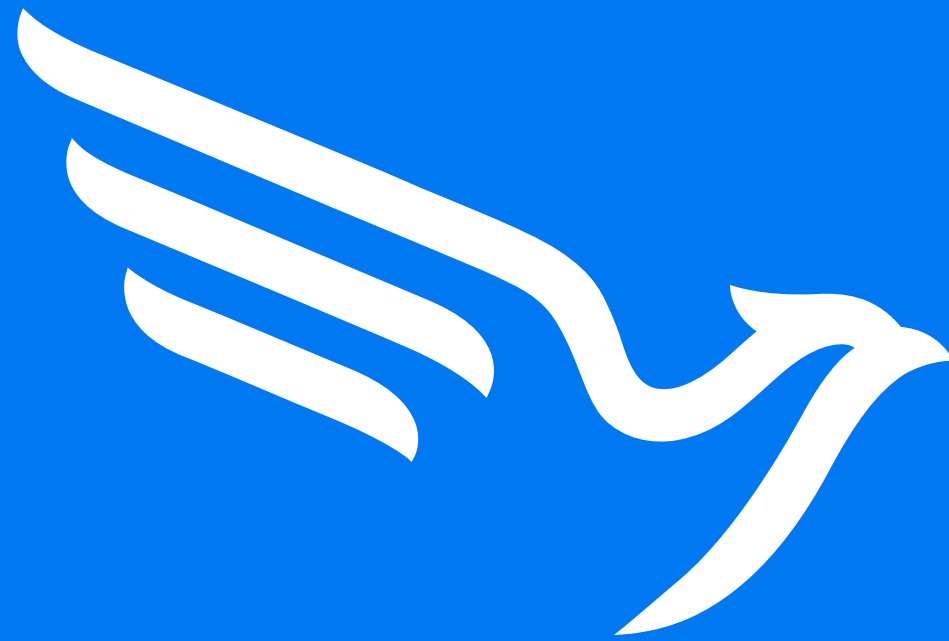

2. Letter Modification

The bold weight of Untitled Sans has been used for the logo, however it has been modified to look unified with the bird symbol. The kerning has also been carefully set.

When using the logo, only use the expanded version that is provided. Do not Wsimply type it out in the provided font.

Let's soar
together

The tagline embodies the company's values and projects a specific personality. The visual imagery of a bird in flight supports the momentum associated with the statement.

It also acts as a seminal point for the 'Let's' philosophy which is recurring theme in the brand communication. But the addition of the word 'together' goes beyond business collaborations.

It addresses the community and society at large. Therefore, the statement also acts as a beacon of inspiration and hope for a better tomorrow.

Technology & Innovation

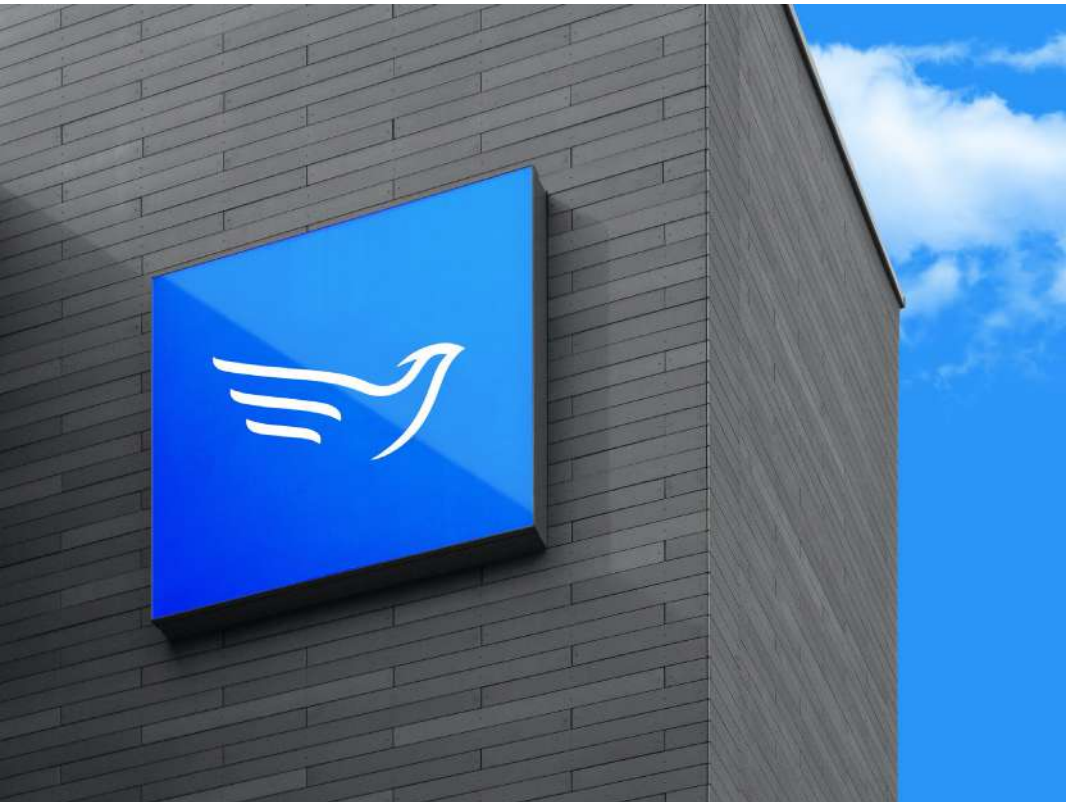

The Icon style is filled. This way they can be used on a wide variety of backgrounds and surfaces.

These icons are use in various Phoenix presentations shared with clients, on the website, on maps, floorplans and site plans.

These pictograms are predominantly used on the Phoenix construction site

Site branding

Aquila
Financial District, Hyderabad

A word that means 'Eagle' in latin, Aquila is a project that embodies the spirit and swiftness of this iconic bird. This philosophy is expressed via the sleek design language and architecture of the building.
